**Write a brief bio to depict your farm. This will be used as a brief bio on the posted farm listings for potential intern applicants to view ([www.pdpw.org](http://www.pdpw.org)). Be sure to include: farm name, contact name, location, herd size and any specialties regarding your farm.**

Scholze Family Farms is a 500 cow dairy farm, who also raise some beef animals for direct to consumer beef sales. We also farm approximately 1,800 acres of corn, alfalfa, soybeans, and wheat. Currently we are in the process of changing from a predominantly Holstein herd to Jerseys in an effort to produce for solids for the cheese market. Theo Scholze is the farm contact and can be reached with questions regarding our opportunity.

**Provide any other detail regarding you or your farm operation that may be of value to the applicants when selecting your farm.**

We have a small on farm retail store for our beef products as well as other locally produced agricultural products.

List three specific goals for your intern to receive during this internship. (What do you want the student to learn?)

- 1) Basic Dairy SOPs, the reasoning behind them and help with updating
- 2) Understanding of dairy economy/business model
- 3) Understanding of various Repro strategies and reasons for our selection

Applicants are asked to assess their current skill level. What is an acceptable starting level for your student intern? Please indicate in each of the categories below.

Technical Skills	EXCELLENT	GOOD	FAIR	NO EXPERIENCE
AI				x
Business management skills				x
Calving assistance				x
Computer skills		x		
Cropping skills				x
Feeding–nutrition				x
Herd health issues				x
Machinery operation				x
Milking processes				x

Please list any additional information regarding your farm or internship opportunity.

As we are making the conversion to Jerseys we are having to make some adjustments to our barn, our hope is that our student can help up with the redesign of our barn, things like appropriate stall sizing, feed row space ect. We are also anticipating the need to update our SOPs with different animals so would have the student work on that as well.
