

PDPW MENTOR PROGRAM

The dairy industry is rapidly changing, and with over 1.2 million cows in Wisconsin each generating over \$34,000 yearly in local economic activity, it is crucial that producers stay current with new technologies. PDPW believes in continuous improvement by abiding to a lifestyle committed to learning. The Mentor Program is a great way for students to connect with producers and learn through experience about the changing dairy industry!

What do you like best about the program?

"I love the diversity that the program brings, allowing me to get out and experience different ways of dairying."

-2016 Mentor Program Participant

What is the PDPW Mentorship Program?

- PDPW's version of a job shadow
- Matches college students with dairy producers in a specified field of interest
- Students commit to spending 8 hours on their mentor's farm and learn about their operation and the dairy industry
- FREE registration to PDPW Annual Business Conference, March 14 & 15, 2018! Where students can connect with dairy industry professionals and listen to 50+ World Class speakers and hands-on labs.
