

# PDPW MENTOR PROGRAM

The dairy industry is rapidly changing, and with over 1.2 million cows in Wisconsin each generating over \$34,000 yearly in local economic activity, it is crucial that producers stay current with new technologies. PDPW believes in continuous improvement by abiding to a lifestyle committed to learning. The Mentor Program is a great way for students to connect with producers and learn through experience about the changing dairy industry!

## What do you like best about the program?

*"I love the diversity that the program brings, allowing me to get out and experience different ways of dairying."*

-2017 Mentor Program Participant

## What is the PDPW Mentorship Program?

- PDPW's version of a job shadow
- Matches college students with dairy producers in a specified field of interest
- Students commit to spending 8 hours on their mentor's farm and learn about their operation and the dairy industry
- FREE registration to PDPW Annual Business Conference, March 13 & 14, 2019! Where students can connect with dairy industry professionals and listen to 50+ World Class speakers and hands-on labs.
