

Dairy Dialogue Day

April 20, 2017

9:00AM – 3:30PM

This is more than a tour!

Pick the brains of fellow dairy farmers. Engage in conversations that will allow you to walk away with new ideas and insights.

See how two high-performing dairies operate

Betley Family Farms – Pulaski, Wis. operated by Jeff, Jena, Jack and Gloria Betley

The Betleys milk 1,700 dairy cows near Pulaski, Wis. Learn how this herd has averaged over 100 pounds of milk per cow per day for over five consecutive years. By changing how and

where the youngstock are raised, Betleys are able to grow a better heifer more economically. The Betleys are excited about their future plans for the next generation and collaboration with other dairies in their area.

The Jauquets farm in Shawano County where they milk 285 cows averaging 32,376M 1,204F and 1,027P. They take pride in their home-bred, high-genetic herd. Synergy Dairy focuses on achieving exceptional growth in their calves, with wet calves gaining 2.25 – 2.5 pounds per day. They've recently improved pregnancy rates by over 5 percent.

Synergy Dairy, LLC – Pulaski, Wis. operated by Jay & Heather Jauquet; Gary & Linda Olson

Facilitated by:

Dr. Randy Shaver, UW-Madison, will facilitate discussions with these two dairies as you get a closer look at farm management practices.
