Making the right decisions with cover crops

Matthew Ruark, Associate Professor
UW – Madison, Dept. of Soil Science

Presented by: Matthew Ruark

Always LIVE on a Wednesday, noon–1:00 p.m. CDT

Wednesday, August 17 (*register by Aug. 3*)

GOALS AND OUTCOMES OF COVER CROPS

Explore the countless options for dairy producers when it comes to cover crops. Discover the pros and cons of cover crops when interpreting new research compiled throughout the Midwest and Wisconsin. Tune in for one hour with Matt Ruark as he covers the goals and outcomes of cover crops including: erosion, nutrient capture, forage generation and understanding the climate in order to make realistic and obtainable goals.

Sign up today online or call PDPW

PDPW members register for \$100 per session.

Non-PDPW members can register at \$125 per session.

If you have a date/time conflict, you can watch a fully recorded version at your leisure.
(You must be registered to receive a recorded session.)
