

HOG SLATS

BY WIESER CONCRETE

8"X10"X12' BEAMS

DriCast Slats

Wieser DriCast Advantage:

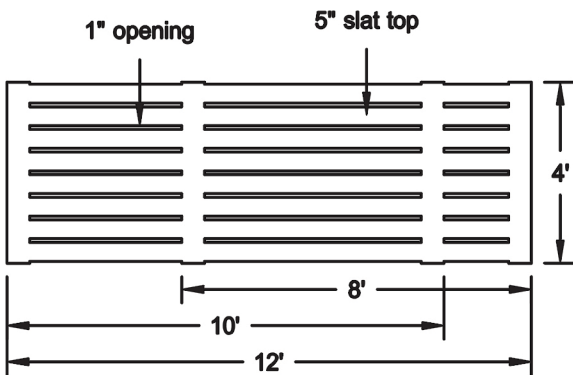

- **Uniform quality** - Unlike conventional poured slats, Wieser's machine-made slats offer consistent quality for smoothness, finish and texture. The quality control offered by this process means longer product life.
- **Strength** - DriCast concrete is vibrated and compacted in the forms giving a denser, stronger gang slat. Comprehensive strength of this powerful product is 8000 PSI.

STEEL REINFORCED W/ 2 STEEL MATS
