

Financing Solutions

Bremer Bank partners with ag operations of all sizes to provide custom-tailored, innovative financing options. You can expect us to be responsive and flexible, and to provide professional expertise and advice. Our financing experts use their years of experience to develop solutions that best fit the goals of your operation.

Common options for financing

WORKING CAPITAL

Bremer offers several types of loans to support inventory and working capital assets. We will custom structure financing such as revolving lines of credit and working capital loans to fit the needs of the operation.

REAL ESTATE

We provide real estate financing for buildings and land.

EQUIPMENT FINANCING

We offer structured term loans or leases to help you obtain the equipment you need.

PROJECT FINANCING

Our project financing helps you to expand or diversify your operation.

CROP INPUT FINANCING

Our ag specialists tailor the type of lending to your needs, including crop input financing.

CASH FLOW/ASSET-BASED FINANCING

Bremer provides sound financing solutions for businesses needing to meet their day-to-day operating needs.

LONG-TERM REAL ESTATE FINANCING

This option can provide long-term, fixed-rate financing for agricultural production land.

FARM SERVICE AGENCY GUARANTEED LOANS

We offer a full product line of FSA loans.

SWAPS AND DERIVATIVES

These products offer businesses the ability to manage interest rate risk by using forward locks, caps, floors and swaps.

LETTERS OF CREDIT

We issue domestic and international standby and commercial letters of credit.

Special rural designated area financing

NEW MARKET TAX CREDITS

This type of financing provides some equity assistance along with project financing for projects in rural designated areas.

USDA RURAL DEVELOPMENT LOAN PROGRAMS

There are a variety of options for business loans in rural designated areas.
