Hi-Flo™ Evolution

THE EVOLUTION OF PULSATION

The HiFlo Evolution is the ultimate in durability and simplicity. Made up of only eight different parts, it is easy to install and easy to clean. The HiFlo Evolution is designed to save you time and money while delivering perfect and reliable pulsation.

Durability, reliability and easy maintenance are only the beginning of the HiFlo Evolution story.

- **Unique patented design** – Built to be for efficient and offering reliable operation and complete milking
- **Highest quality components and materials** – For a high level of durability and ruggedness
- **Easy installation** – No stallcock is needed, easily connects and disconnects to the vacuum line
- **Easy maintenance** – Minimal parts and simple design makes it easy to maintain and requires no tools to take apart and reassemble
- **Wiring harnesses** – To further improve installation and eliminate potential wiring errors
- **Fully encapsulated solenoid coil** – Electrical contacts are protected and water tight
