

Agromatic RELAX

Flexible Freestall System

- Increase lying time
- Cows enter stall and lie down more quickly
- Increase milk production
- Decrease cull rates
- Stalls stay cleaner due to proper positioning

*Standard RELAX color is gray as shown. Various colors available for container orders.

Lower Flexible Plastic Pipe:
guides cow into the correct position when lying down

Upper Plastic Pipe:
guides cow going into and out of stall

Floating Control Rail:
assures cows enter and lie down promptly
