DAIRY AUTOMATION INC.

STAND-ALONE MILK METER

Accurate flow-through meter NOT a milk yield indicator

-Very accurate meter that does not need to lift milk or restrict it to be accurate

No Maintenance or Rebuild kits

-Saves money and time, no need to buy expensive kits every year

7/8" flow-through milk path

-This allows for a steady claw vacuum creating a fast and gentle milking experience

Plug and play installation

-Truly a plugin meter that allows for a fast and easy installation

Conductivity included

-Allows for more data points for managing your dairy
