

Getting Calves Started Right, From Day 1

SmartCare® is a natural immune support product from Diamond V for pre-weaning milk and milk replacer calf diets to support **immunity, health** and **performance**. It is designed to be added to whole milk or milk replacer.

Key Benefits

Research shows **SmartCare** supports:

- Calf immunity and overall health
- Faster rumen and intestinal development
- Increased starter intake
- Greater body weight gain

Product Description

- Flowable, powdery material that mixes well into milk or milk replacer
- Benefits delivered from the first day of calf's life
- Grain-free formulation – does not contain any grain products

Research Data to Support ROI

Fewer treatments

- \$5 – 6 difference in treatment and labor costs¹

Reduction of days in treatment

- 1 – 3 days less¹

Reduction of health events

- Scours² and respiratory³

Greater average daily gain

- 5.5 lbs advantage in weaning weights²

Calf management and specific dairy protocols will affect ROI on each individual dairy.

² Brewer, et al., 2014

³ Diamond V – US Field Trials, 2017

Industry Data – First Lactation Performance

- Each day a calf under the age of 4 months is sick, -277 lb milk Heinrichs & Heinrichs, 2011
- Every 0.1 lb improvement in ADG under 3 months, +154 lb milk Soberon & Van Amburgh, 2013

Feeding Recommendations

For milk or milk replacer, add **SmartCare** (1 g/hd/d) to the milk from day 1 of age through weaning.

Available Sizes:

12 – 900 g
pouches per case
SKU: 01-6161-0256

4 – 5 kg
bags per case
