

# **MENTOR PROGRAM**

The dairy industry is rapidly changing, and with over 1.2 million cows in Wisconsin each generating over \$38,000 yearly in local economic activity, it is crucial that producers stay current with new technologies. PDPW believes in continuous improvement by abiding to a lifestyle committed to learning. The Mentor Program is a great way for students to connect with producers and learn through experience about the changing dairy industry!

*“The Mentor Program was an eye-opening experience. I am truly grateful for this opportunity and excited to use the knowledge I learned in the future.”*

-2018 Mentor Program Participant

## **What is the PDPW Mentorship Program?**

- PDPW's version of a job shadow
- Matches college students with dairy producers and tries to align with their area of interest
- Students commit to spending 8 hours on their mentor's farm and learn about their operation and the dairy industry
- FREE registration to PDPW Annual Business Conference, March 18 & 19, 2020! Where students can connect with dairy industry professionals and listen to 50+ World Class speakers and hands-on labs

**APPLICATIONS ARE DUE  
NOVEMBER 17<sup>th</sup>, 2019**
