New tools to manage market volatility

Wednesday, October 24, 2018 12:00 p.m - 1:00 p.m. CT

What can you do to minimize risk within the dairy market?

Broker and hedger Carl Babler will explain the newest tool for managing market volatility - Dairy Revenue Protection Insurance, offered through the USDA Risk Management Agency.

In addition to breaking down the options of Dairy-RP, Babler will talk through available price, revenue and margin-protection programs offered by the USDA. He'll provide clarity and basic understanding of how Dairy-RP works and outline strategies available to producers to use this insurance effectively. He'll equip you with practical insights you can put to work right away.

hedger since 1975. He instructed at the School of Agriculture at the University of Wisconsin-Platteville for 17 years and is currently lead instructor of a Comprehensive Commodity Marketing Class which has been offered in 29 locations in 6 states to commodity producers and agribusiness professionals. He also works nationally with several cooperatives and proprietary cheese plants to deliver producer milk-contracting programs.
