

“Managing low-lignin alfalfa and BMR corn silage diets”

PRESENTED BY:

UW-Madison Professor David Combs & Dr. Randy Shaver

Always LIVE on a Wednesday, from Noon – 1:00 p.m. CT * (note below)

Wednesday, January 10, 2018

FEEDING REDUCED-LIGNIN ALFALFA & BROWN MIDRIB CORN SILAGE IN DAIRY COW RATIONS

Together, Professor David Combs and Dr. Randy Shaver of UW-Madison will provide critical insight to how dairymen can leverage the benefits of reduced-lignin alfalfa and brown midrib corn silage in their rations. Combs will discuss the ins and outs of using low-lignin alfalfa on your farm while Shaver will sort through the watch-outs of feeding reduced-lignin alfalfa and BMR corn silage together. Learn how to capitalize on home-grown feeds to keep your cash within the dairy.
